Ned,

On the EtO call this morning, Mike asked if we had any comments on the monitoring done around this facility in NM and I was wondering if you had more specifics than what you provided below. Mike has a call at 1pm today with folks around this issue and was wondering if we had any talking points on the monitoring we could provide to him as background for the call he has.. I am not sure if you are working today or not, but if by chance you are, can you send me a little bit more on your thoughts around the monitoring they did?

Thanks
 Chet

Hello Mike –

Attached are some draft talking points that R6 developed to have in case reporters ask about this lawsuit that the state of NM filed yesterday. I do not think there is a deadline for responding to them but clearly OAR and Madeline will also want to review as well. Most of the language is from the web but I think it is time to start shifting the conversation away from a NATA-focus to an EtO overall focus. Perhaps make some reference to the info we have from the NATTS?

Thanks,

Jenny
